Preparation of articles

Journal Bulletin of Mines has no restrictions on the length of the articles, but articles should not be shorter than 5 pages. Articles should be written in Serbian (Cyrillic) and English, with the following structure: title, authors, affiliations, e-mail of corresponding author, ORCID number of all authors (if they have), abstract, key words, main text, acknowledgements (option), references. In main text use no numbered headings for the following sections: introduction, experimental, results, discussion and conclusions. Numbering is also omitted for the acknowledgment and references. Spacing before headings 18 pt and after headings 12 pt.

The articles should be prepared on the standard A4 format (210×297 mm). All the margins should be set at 25 mm (top, bottom, left and right).

Text of the article should be written in Times New Roman, 12 pt, justified, single line spacing. Spacing before and after paragraphs 6 pt. The Abstract should not exceed 200 words. A maximum of five key words should be indicated below the abstract to describe the content of the article.

All tables and figures should have an appropriate title and be numbered in the order of appearance in the text, with mandatory reference to them in the text. Table numbers and titles are always above the tables. The numbering and titles of the pictures are always below the pictures. If the figures is not the original contribution of the author, it is mandatory to cite the source (if the figures has already been published), or the author from whom it was taken (if the figures has not yet been published).

References to literature in the text of the article must be cited in the order of their appearance in the text, listed in square brackets, for example [1, 3]. References to literature are mandatory in the text of the article. References are not translated into the language of the paper. Titles of cited domestic journals are given in the original, full or abbreviated form, but never in translated form.

References list should be prepared for different types of references, as follows:

- [1] Author, A.B., Author, B.C, Article title, Journal title, 48 (1), 2024, 10-20. <https://doi.org/XXX>
